Birney 3rd- 5th graders - it's time to put on a show! Our neighborhood theatre is excited to present **STAGE SCENES**. No previous experience necessary.

We will learn acting basics by performing scenes together that students have either created or selected. Emphasis will be on character development and preparing a role for performance. Students will practice skills such as projection, cheating out, character analysis, subtext, scoring a script and having fun, of course.

Friends and family – come to the finale show held right after the last day of class!
