

DIVERSIONARY

Theatre
Presents:

FREE After-School Program:

In Person!

Theatre Club!

Elementary School!

COVID-19 protocol: We will be fully masked and instructors vaccinated for this program, and follow all Birney and state guidelines.

About the program:

This is a fun-filled workshop that uses theater as a catalyst for teaching social skills, building emotional intelligence, and creativity in a safe and inclusive space. Students will learn many theatre games, and storytelling techniques to unlock creative potential. By building self-esteem through ensemble work, students can confront challenges, build resilience, and demonstrate empathy while having fun and showing off their talents. There will be a final sharing for friends and family in December.
